Subject Index

ACCESS
Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

CLINICAL PROCEDURES
Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.
A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.
Data Collection/Patient assessment
Assessing interproximal gingival health: The wooden interdental cleaner versus the periodontal probe. Toevs SE, et al., 228.
Juvenile diabetics' oral health and locus of control: A pilot study. Scruggs RR, et al., 376.
Managerial role development of the dental hygienist in initial patient interactions. Campbell PR, 342.
A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.
Dental hygiene treatment planning
Cognitive-behavioral psychology and oral hygiene: A new perspective on an old problem. Wolfe GR, et al., 130.
Juvenile diabetics' oral health and locus of control: A pilot study. Scruggs RR, et al., 376.
Planning oral hygiene education
Juvenile diabetics' oral health and locus of control: A pilot study. Scruggs RR, et al., 376.
Recall and maintenance
Juvenile diabetics' oral health and locus of control: A pilot study. Scruggs RR, et al., 376.
Survey of recall systems in dental hygiene programs. Graves CE, et al., 79.
Patient education
Assessing interproximal gingival health: The wooden

interdental cleaner versus the periodontal probe. Toevs SE, et al., 228.
Cognitive-behavioral psychology and oral hygiene: A new perspective on an old problem. Wolfe GR, et al., 130.
Juvenile diabetics' oral health and locus of control: A pilot study. Scruggs RR, et al., 376.
Xerostomia: A review for dental hygienists. Gilpin JL, 111.

Preventive agents

Oral irrigation

The effect of professional and home subgingival irrigation with antimicrobial agents on gingivitis and early periodontitis. Wolff LF, et al., 222.

Root Planing

Assessment of curette sharpness. Hoffman LA, et al., 382

Hand instruments

Assessment of curette sharpness. Hoffman LA, et al., 382.

Scaling

Assessment of curette sharpness. Hoffman LA, et al., 382.

Hand instruments

Assessment of curette sharpness. Hoffman LA, et al., 382.

COMMUNITY DENTAL HEALTH

Public health programs

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

Rural

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

COMPETENCE/QUALITY ASSURANCE

Effects of specific criteria and calibration on examiner reliability. Scruggs RR, et al., 125.
A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

Evaluation system

A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

CONTINUING EDUCATION

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.
Increasing access to quality dental hygiene care: An educational model. Forrest JL, et al., 238.

Attitude toward

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.
Continuing education. Hull RH, et al., 415.
Dental hygiene continuing education: Satisfaction and achievement. Young LJ, et al., 272.
Dental hygiene student interest in advanced education. Newell KJ, et al., 276.
Relationship between educational level of dental hygienists and their perceptions regarding postcertificate/postassociate degree programs. Tobian MS, 438.

Alternative forms

Dental hygiene continuing education: Satisfaction and achievement. Young LJ, et al., 272.
Dental hygiene student interest in advanced education. Newell KJ, et al., 276.

Courses

Continuing education. Hull RH, et al., 415.
Dental hygiene continuing education: Satisfaction and achievement. Young LJ, et al., 272.

Need

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.
Continuing education. Hull RH, et al., 415.
Dental hygiene continuing education: Satisfaction and achievement. Young LJ, et al., 272.
Dental hygiene student interest in advanced education. Newell KJ, et al., 276.
Relationship between educational level of dental hygienists and their perceptions regarding postcertificate/postassociate degree programs. Tobian MS, 438.

Programs

Dental hygiene continuing education: Satisfaction and achievement. Young LJ, et al., 272.
Dental hygiene student interest in advanced education. Newell KJ, et al., 276.

Requirements

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.

DELIVERY

Office profile. Schwarz I, et al., 185.
A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

General population

Children

Office profile. Schwarz I, et al., 185.

Geriatric

Office profile. Schwarz I, et al., 185.

Special population groups

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.
Student dental hygienists' and dental hygiene educators' attitudes toward the handicapped. Stoltenberg JL, et al., 117.

Other

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

DEMOGRAPHIC CHARACTERISTICS

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.
Office profile. Schwarz I, et al., 185.

Dental hygienists

Attitudes of dental hygienists toward continuing education. Behroozi KR, et al., 424.
Continuing education. Hull RH, et al., 415.
Managerial role development of the dental hygienist in initial patient interactions. Campbell PR, 342.
Office profile. Schwarz I, et al., 185.
Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.

Dentists

Continuing education. Hull RH, et al., 415.

DENTAL AUXILIARIES

Dental assistants

Continuing education. Hull RH, et al., 415.

DENTAL HYGIENE BUSINESS
Increasing access to quality dental hygiene care: An educational model. Forrest JL, et al., 238.
Independent practice
Increasing access to quality dental hygiene care: An educational model. Forrest JL, et al., 238.
Marketing
Marketing the dental hygienist as a manager in oral health care settings. Thomson EM, 336.

DENTAL HYGIENE CAREERS
Articulation in dental hygiene education from the student's perspective. Glick, NL, 33.
Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.
Marketing the dental hygiene program: A public relations approach. Nielsen C, 322.
Office profile. Schwarz I, et al., 185.
Sexual discrimination in academia: Implications for dental hygiene faculty. Shuman D, et al., 65.
A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.
Employee/Employer relations
Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.
Dental hygienists' performance of procedures emphasized in school: Frequency and barriers. Tillis TSI, et al., 134.
Manager's guide to reducing dental hygiene turnover. Loiacono C, 328.
Employment rates
Office profile. Schwarz I, et al., 185.
Employment settings
Articulation in dental hygiene education from the student's perspective. Glick NL, 33.
Marketing the dental hygiene program: A public relations approach. Nielsen C, 32?.
Office profile. Schwarz I, et al., 185.
Expanded functions
Marketing the dental hygiene program: A public relations approach. Nielsen C, 322.
Future
Articulation in dental hygiene education from the student's perspective. Glick NL, 33.
Managerial role development of the dental hygienist in initial patient interactions. Campbell PR, 342.
Job satisfaction
Articulation in dental hygiene education from the student's perspective. Glick NL, 33.
Manager's guide to reducing dental hygiene turnover. Loiacono C, 328.
Sexual discrimination in academia: Implications for dental hygiene faculty. Shuman D, et al., 65.
Recruitment
An articulation model to increase student enrollment in a dental hygiene program. Kee A, et al., 432.
Factors influencing the career selection of first-year dental hygiene students. Carr SJ, 266.
Marketing the dental hygienist as a manager in oral health care settings. Thomson EM, 336.
Roles
Managerial role development of the dental hygienist in initial patient interactions. Campbell PR, 342.
Marketing the dental hygiene program: A public relations approach. Nielsen C, 322.
Utilization
Marketing the dental hygiene program: A public relations approach. Nielsen C, 322.

DENTAL HYGIENE EDUCATION
Articulation in dental hygiene education from the student's perspective. Glick NL, 33.
Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.
An educational model for preparing dental hygiene students in the treatment of periodontal diseases. Kraemer LG, et al., 232.
Effects of specific criteria and calibration on examiner reliability. Scruggs RR, et al., 125.
Increasing access to quality dental hygiene care: An educational model. Forrest JL, et al., 238.
Sexual discrimination in academia: Implications for dental hygiene faculty. Shuman D, et al., 65.
Survey of recall systems in dental hygiene programs. Graves CE, et al., 79.
Administration
Sexual discrimination in academia: Implications for dental hygiene faculty. Shuman D, et al., 65.
Admission/Recruitment
An articulation model to increase student enrollment in a dental hygiene program. Kee A, et al., 432.
Marketing the dental hygienist as a manager in oral health care settings. Thomson EM, 336.
Curriculum
Dental hygienists' performance of procedures emphasized in school: Frequency and barriers. Tilliss TSI, et al., 134.
An educational model for preparing dental hygiene students in the treatment of periodontal diseases. Kraemer LG, et al., 232.
Faculty
Sexual discrimination in academia: Implications for dental hygiene faculty. Shuman D, et al., 65.
Student dental hygienists' and dental hygiene educators' attitudes toward the handicapped. Stoltenberg JL, et al., 117.
History
Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.
Need
Relationship between educational level of dental hygienists and their perceptions regarding postcertificate/postassociate degree programs. Tobian MS, 438.
Outcome assessment
Dental hygienists' performance of procedures emphasized in school: Frequency and barriers. Tilliss TSI, et al., 134.
Philosophy and methodology
An educational model for preparing dental hygiene students in the treatment of periodontal diseases. Kraemer LG, et al., 232.
Programs
Articulation in dental hygiene education from the student's perspective. Glick NL, 33.
Relationship between educational level of dental hygienists and their perceptions regarding postcertificate/postassociate degree programs. Tobian MS, 438.
Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.
Undergraduate
Relationship between educational level of dental hy-

gienists and their perceptions regarding postcertificate/postassociate degree programs. Tobian MS, 438.

Students

Articulation in dental hygiene education from the student's perspective. Glick NL, 33.

Marketing the dental hygienist as a manager in oral health care settings. Thomson EM, 336.

Student dental hygienists' and dental hygiene educators' attitudes toward the handicapped. Stoltenberg JL, et al., 117.

ETIOLOGY ORAL DISEASES

Plaque

The effect of professional and home subgingival irrigation with antimicrobial agents on gingivitis and early periodontitis. Wolff LF, et al., 222.

Clinical

The effect of professional and home subgingival irrigation with antimicrobial agents on gingivitis and early periodontitis. Wolff LF, et al., 222.

Saliva

Xerostomia: A review for dental hygienists. Gilpin JL, 111.

INSTRUMENTATION

Assessment of curette sharpness. Hoffman LA, et al., 382.

Sharpening

Assessment of curette sharpness. Hoffman LA, et al., 382.

LEGISLATIVE/JURISPRUDENCE

Supervision

Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.

ORAL HEALTH

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

Education

Student dental hygienists' and dental hygiene educators' attitudes toward the handicapped. Stoltenberg JL, et al., 117.

General

Cognitive-behavioral psychology and oral hygiene: A new perspective on an old problem. Wolfe GR, et al., 130.

Special population group

Dental needs and perceptions of adult Hispanic migrant farmworkers in Colorado. Entwistle BA, et al., 286.

Student dental hygienists' and dental hygiene educators' attitudes toward the handicapped. Stoltenberg JL, et al., 117.

Xerostomia: A review for dental hygienists. Gilpin JL, 111.

PATIENT

Compliance

Cognitive-behavioral psychology and oral hygiene: A new perspective on an old problem. Wolfe GR, et al., 130.

Management

Manager's guide to reducing dental hygiene turnover. Loiacono C, 328.

PERIODONTAL DISEASE

An educational model for preparing dental hygiene students in the treatment of periodontal diseases. Kraemer LG, et al., 232.

A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

Diagnosis

Assessing interproximal gingival health: The wooden interdental cleaner versus the periodontal probe. Toevs SE, et al., 228.

Etiology

Xerostomia: A review for dental hygienists. Gilpin JL, 111.

Prevention

The effect of professional and home subgingival irrigation with antimicrobial agents on gingivitis and early periodontitis. Wolff LF, et al., 222.

A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

Screening

Assessing interproximal gingival health: The wooden interdental cleaner versus the periodontal probe. Toevs SE, et al., 228.

A system for ensuring success of long-term supportive periodontal therapy. DeVore CH, et al., 214.

PLAQUE CONTROL

Approaches

Assessing interproximal gingival health: The wooden interdental cleaner versus the periodontal probe. Toevs SE, et al., 228.

Xerostomia: A review for dental hygienists. Gilpin JL, 111.

Devices

The effect of professional and home subgingival irrigation with antimicrobial agents on gingivitis and early periodontitis. Wolff LF, et al., 222.

PROFESSION

Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.

Association business

Report of the editorial director. Ibsen OAC, 156.

Report of the executive director. Thiel JC, 154.

Report of the president. Williamson B, 150.

Attitudes

Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.

Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.

Dental hygienists

Dental hygienists' performance of procedures emphasized in school: Frequency and barriers. Tilliss TSI, et al., 134.

Supervision and practice of dental hygienists: Report of ADHA survey. Benicewicz D, et al., 173.

Development

Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.

Future

Managerial role development of the dental hygienist in initial patient interactions. Campbell PR, 342.

History

Dental hygiene's heritage: 1927-1970. Sisty-LePeau N, et al., 371.
